Project: School of Knowledge Production and Transfer for Global Economy and Governance (SKOPE4GEG), 18-COP-0032

The project partnership has been created in view to put together an experienced HEI from donor state (IS) and a HEI from Romania, both specialised in providing higher education and training programs and the National Institute for Scientific Research for Labour and Social Protection, specialised in studying the labour market and occupational standards. The cooperation between the partners aims to build up **professional tools in order to better connect the education with the world of work for new positions**. The training modules that we are developing within the project are increasing the employability of the students on the world of work by acquiring additional qualifications.

The project SKOPE4GEG started on September 1st, 2019
and will be finished on August 31st, 2021
Budget is 100 949.00 Euro

The team from National University of Political Studies and Public Administration got together to assign the tasks among the members and to set up the internal communication.

OBJECTIVES

Objective 1 – create additional two training modules on knowledge production and transfer (KPT) aiming to increase the employability of youth (especially female, Roma) in the field of higher education and in SMEs testable in 24 months

Objective 2 – explore the future coordinates of the ecosystem “education-world of work in knowledge production and transfer” (E-WW KPT) and reveal the most important factors to facilitate a better integration of the targeted groups in two studies in 15 months

Objective 3 – improve the educational offer of the universities in socio-economic science with additional modules aimed to personalized the education for special demand in the world of work, to be included in partners education offer for 2021-2022

Objective 4 – create an mixt working group of 20 to improve cooperation between universities and stakeholders from knowledge production and transfer sector with the aim to better address their needs by the end of the project
